

I'm not here to debate whether the village needs a laundromat or not - it's where the laundromat is being proposed

Mr. Still has already stressed the dangers + pollution concerns.

The building is already being used to its capacity with the number of apartments, retail space and DMV. Adding another business is only going to compound the existing traffic problems on Merritt Avenue.

Parking in Millbrook to begin with is difficult with all the restaurants, Post Office and other businesses. I've even witnessed people who work on Franklin Avenue - parking all day on Merritt Avenue.

I've never seen a sign for DMV parking in the back which leads me to mention that in all the years of me being associated with that building when it was a plumbing shop - I've never witnessed 2 cars passing each other on that driveway. People who have no cars and are using the laundromat will be walking up + down a dangerous driveway especially during the winter.

Another concern is in the parking lot. There will be noise, drinking, and drug use, that neighbors don't need. The neighbors in close proximity deserve the peace and safety they have always had. The proposed hours of operation begin early in the morning and go on into late p.m. 7 days a week.

Have any of the new board members had a chance to physically visit the site to see why the residents are concerned?

In closing...

I know this is a difficult decision. Would you want to live next to something like this?

Poor decisions last a long time and negatively impact a lot of people.

Thank you.
